A. PRESENTATION – 2019 Draft Pedestrian and Bicycle Master Plan

The Village of Hobart has grown rapidly over the last three decades, and especially since 2010, with an estimated 3,000+ additional people in the last nine years. As more people continue to move to the village, the interest level in walking and bicycling will most likely grow. Increased population will also mean that more people are traveling around the community, to a large degree by vehicle. These changing conditions mean more people are using the existing transportation network, but the facilities have largely remained the same. Through working on this plan, the Village is proactively working to plan long-range to address community needs and desires. Adoption of the final plan will be scheduled for a Board meeting in December.
